NASDAQ:CCBG

Forward-Looking Statement

NASDAQ:CCBG

This presentation includes forward-looking statements, including statements about future results. These statements are subject to uncertainties and risks, which could cause the Company's future results to differ materially. The following factors, among others, could cause the Company's actual results to differ: our ability to successfully manage interest rate risk, liquidity risk, and other risks inherent to our industry; legislative or regulatory changes, including the Dodd-Frank Act, Basel III, and the ability to repay and qualified mortgage standards; the effects of security breaches and computer viruses that may affect our computer systems or fraud related to debit card products; the accuracy of our financial statement estimates and assumptions, including the estimates used for our loan loss provision, deferred tax asset valuation and pension plan; the frequency and magnitude of foreclosure of our loans; the effects of our lack of a diversified loan portfolio, including the risks of geographic and industry concentrations; the strength of the United States economy in general and the strength of the local economies in which we conduct operations; our ability to declare and pay dividends, the payment of which is now subject to our compliance with heightened capital requirements; changes in the securities and real estate markets; changes in monetary and fiscal policies of the U.S. Government; inflation, interest rate, market and monetary fluctuations; the effects of harsh weather conditions, including hurricanes, and man-made disasters; our ability to comply with the extensive laws and regulations to which we are subject, including the laws for each jurisdiction where we operate; the willingness of clients to accept third-party products and services rather than our products and services and vice versa; increased competition and its effect on pricing; technological changes; negative publicity and the impact on our reputation; changes in consumer spending and saving habits; growth and profitability of our noninterest income; changes in accounting principles, policies, practices or guidelines; the limited trading activity of our common stock; the concentration of ownership of our common stock; anti-takeover provisions under federal and state law as well as our Articles of Incorporation and our Bylaws; other risks described from time to time in our filings with the Securities and Exchange Commission; and our ability to manage the risks involved in the foregoing. Additional factors can be found in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016, and the Company's other filings with the SEC, which are available at the SEC's internet site (<http://www.sec.gov>). Forward-looking statements in this presentation speak only as of the date of this presentation. The Company assumes no obligation to update forward-looking statements or the reasons why actual results could differ.
